

MAGFORMERS®

Intelligent Magnetic Construction Set For Brain Development

MAGFORMERS MODEL BOOKLET

MAGFORMERS LLC

Magformers is a 3D educational magnetic toy that includes pieces with 360° rotating magnets inside, so they always rotate to their attraction position ensuring the perfect connection and fit every time. With Magformers, children can naturally understand the underlying geometry of 2D shapes and 3D figures. Also, children can develop mathematical and creative sensibility while building whatever they can imagine.

How to Assemble Carnival Accessories

The Axis Assembly

There is a long side and a short side that are connected to the Axis of the Hexagon Supporter. Attach to the Axis with the long side outward and the short side inward.

Assemble according to the image below.

Push the Axis in while turning it toward the short side of the Hexagon Supporter until you feel the square hole of the Axis catch the inside of the Hexagon Supporter.

Firmly press the Fixing Wheel into position 'a' shown above until it connects with a "click" sound.

Please make sure the Fixing Wheel is assembled according to the picture above.

The Supporter Assembly

You can directly connect the assembled Axis to the Carnival Base, and make a rotating basket.

Have fun making a Ferris wheel and a pirate ship with a Y shape supporter.
