

### Discover Countless Ways To Play

- 1 Place the ice-cream scoops, wooden cone and ice-cream scooper in front of the child. Ask the child to stack the scoops one at a time on top of the cone and say the name of each flavor as they stack them.
- 2 Arrange the four ice-cream scoops in front of the child. Ask the child to study the order of the scoops. Scramble the scoops while the child closes his/her eyes. Ask the child to unscramble the scoops to match the original pattern.
- 3 Order an ice-cream cone from the child. Ask the child to use the scooper to make a cone that matches the sequence of your order.
- 4 Have the child stack multiple scoops on the cone and balance them while walking to a point across the room and back.
