# GET TO KNOW ARIEL

Ariel is an independent, adventurous young mermaid. She is a princess and the youngest daughter of King Triton, ruler of Atlantica. Curious and free-spirited, Ariel spends most of her time outside of the palace walls, singing and exploring her ocean home. Ariel likes to search for human artifacts lost at sea which she hides away in her secret cave. She often daydreams about living on the land the way humans do. King Triton worries about his daughter's fascination with the humans because he finds them and their world dangerous.

Ariel's best friends are Flounder, a cute, brightly colored fish, and Sebastian, a crab who learns to love adventure. Flounder always joins Ariel on all her adventures. Ariel can always count on Flounder's help, even though he is not very brave. Sebastian, whose full name is "Horatio Thelonious Ignacious Crustaceous Sebastian", is the royal court composer and adviser to the King. King Triton asks Sebastian to follow Ariel and help her stay out of trouble. Along the way, the two become good friends.

When Ariel falls in love with a young and handsome human prince named Eric, she sets out on a big adventure with her friends and finally experiences what it's like to be a human and live the life of which she always dreamed.

Rapunzel has lived her whole life locked inside a hidden tower but that has not stopped her from being fearless, curious, and optimistic about achieving her dreams! She has long, magical, golden hair that is 70 feet long and has the ability to heal. Held captive by Mother Gothel, Rapunzel spends her days expressing her creativity by playing music, painting and cooking. Her only friend in the tower is Pascal, a chameleon she saved from a poisonous snake. Pascal can't talk but uses his facial expressions to communicate and to help the lost princess when she needs guidance or support.

Rapunzel has always obeyed Mother Gothel's orders to stay hidden and to keep her magical hair a secret, but she can't help but feel that her true destiny lies outside her lonely tower. Rapunzel hopes that one day, Mother Gothel will allow her to leave the tower as she is tired of her sheltered life and ready for adventure. It's only when she meets Flynn Ryder, a handsome thief on the run seeking shelter in her tower, that she starts to question Mother Gothel's stories and decides to escape the tower. # GET TO KNOW BELLE

One cold dark night, an old woman knocked at a castle gate seeking shelter and offered a rose as payment. The prince of the castle selfishly refused her offer not knowing that she was an enchantress in disguise. To punish the prince for his selfishness, the enchantress cursed him and his servants. The prince was turned into a giant beast and the servants turned into a candelabra, a teapot, a teacup, a feather duster and a mantle clock. Their only hope to break the curse was for the prince to change his selfish ways by falling in love and being loved in return before the rose wilts and loses its last petal.

In a nearby village lives Belle. She is true to herself, independent and outspoken about her beliefs. She sees the best in people and does not judge them by their outward appearance. Belle is intelligent, and loves reading books about romance and adventure. She longs for an exciting life compared to a "normal life" in this small village.

One night, Belle's father is attacked by wolves on his way home and takes refuge in the cursed castle. Despite the servants trying to help him, he is imprisoned by the beast for trespassing. Thinking only of her father, she makes a bargain with the Beast to take her father's place and be his prisoner at the castle. With Belle at the castle, a small hope for salvation began to grow in the servants' minds. However, through adventure and danger Belle begins to see past his beastly nature and discovers that there is more good inside him than either of them imagined.
